

QCDA Recognises Good Practice within North Hertfordshire SAPG

QCDA, in its latest version of “Delivering the Diploma – A Guide to Managing Internal Assessment”, has drawn heavily on the structures and processes that have been developed within North Hertfordshire SAPG. In particular, it has acknowledged the importance of the appointment of an overall Lead Assessor; separate Domain Assessors for each line of learning; institutional Single Point of Contact at SLT level and designated Diploma Administrators; and regular meetings between Exams Officers.

To support the guide, the QCDA has included on its website a case study entitled “Planning ahead at North Herts”. This highlights the approach taken towards planning, co-ordinating and assuring the controlled assessments associated with the Diploma.
